Report on

One Day State Level Webinar on “Public Health: Water & Sanitation”

Organized by
Department of Zoology

Mugberia Gangadhar Mahavidyalaya

Under
DBT star college strengthening scheme, Govt. of India

Programme Supervised by: **Dr. Soma Karmakar**

Date: 27th June, 2021

Time: 3pm to 5pm

Platform: Zoom app streaming

Soma Karmakar
27.06.2021

Principal
Mugberia Gangadhar Mahavidyalaya

Departmental meeting held on 16.06.2021

Members present:

1. Dr.Soma Karmakar, HOD ,Asst Professor
2. Kousik Kr.Mondal, , SACT
3. Raju Majumdar, SACT
4. Sayantika Bera, SACT
5. Purnima Mandal, SACT
6. Dr.Bidhan Chandra Samanta, Associated Professor(Chemistry)

Decision taken in the meeting:

The meeting was held through online mode with Google meet app.We are going to organize one day State level Webinar. This webinar will hep for participant to understand the following path

1. Understanding the link between water and sanitation and public health: The seminar will explore the connection between the availability of clean water, proper sanitation facilities, and the health of individuals and communities.
2. Highlighting waterborne diseases and their prevention: The seminar will address common waterborne diseases, their causes, and the methods to prevent them through improved water quality and sanitation practices.
3. Promoting access to clean water and sanitation facilities: The seminar will emphasize the importance of equitable access to clean water and proper sanitation facilities, especially for vulnerable populations in both urban and rural settings.
4. Discussing sustainable water and sanitation solutions: Participants will be introduced to sustainable and cost-effective methods for water treatment and sanitation, including technologies and best practices.
5. Encouraging community involvement and behaviour change: The seminar will focus on the role of communities in maintaining and promoting water and sanitation hygiene, leading to positive behaviour changes and improved public health outcomes.
6. Addressing challenges and opportunities in water and sanitation: Participants will identify the challenges faced in providing clean water and sanitation services, and explore potential solutions and opportunities for improvement.
7. Sharing research and case studies: The seminar will provide a platform to present research findings and successful case studies related to water and sanitation interventions and their impact on public health.

Notice

Department of Zoology

We are pleased to announce a webinar on "Public Health: Water & Sanitation" organized by **Department of Zoology of Mugberia Gangadhar Mahavidyalaya**. This webinar aims to create awareness about the crucial role of water and sanitation in public health, and it is open to all students interested in the field of public health and environmental sciences.

Details of the webinar are as follows:

Date: 27th June 2021

Time: 3pm to 5pm

Platform: Zoom streaming

Speaker: Prof. Arunabha Majumder, Chairman, Indian Water Works Association (IWWA) and Ex-Director-Professor & Head, Department of Sanitary Engineering, AIHH&PH, Kolkata, Professor Emeritus, Jadavpur University

Topic Highlights:

- Importance of Access to Clean Water
- Sanitation and Hygiene Practices
- Waterborne Diseases and their Prevention
- Sustainable Water Management
- Public Health Policies and Initiatives

This webinar presents an excellent opportunity to broaden your knowledge in the field of public health and gain insights into the significance of water and sanitation in maintaining a healthy society.

We look forward to your active participation in this informative session.

Sincerely,

Dr. Swapan Kumar Misra
Principal

Dr. Kousik Kr. Mondal
Jt. Convenor

-  Josibul Haque thank you so much
-  AMRITENDU MISRA good afternoon to all
-  ramhari batabyal good afternoon everyone.... nice presentation and informative session.
-  DILIP MAITY very informative session
-  Aparajita Mukherjee Very enriching session
-  Swagata Bera Good afternoon myself Swagata Bera Department of Zoology (University of Calcutta)
-  Swatilekha Ghosh very informative session
-  Achintya Kumar Samanta very meaningful presentation
-  Uttam Kumar Kanp very informative lecture.
-  Koushik Dey Very informative discussion

OUTCOME OF THE WEBINER

The webinar covered a wide range of topics related to water and sanitation, including:

- The importance of clean water and sanitation for public health.
- The challenges of providing clean water and sanitation in low-resource settings.
- The latest technologies for improving water and sanitation.
- The role of government, non-governmental organizations, and the private sector in improving water and sanitation.

The webinar concluded with a panel discussion on the future of water and sanitation in the state. The panelists discussed the need for increased investment in water and sanitation, the importance of community participation, and the challenges of scaling up successful interventions.

The following are some of the key outcomes of the webinar:

- Increased awareness of the importance of clean water and sanitation for public health.
- A better understanding of the challenges of providing clean water and sanitation in low-resource settings.
- An appreciation for the latest technologies for improving water and sanitation.
- A renewed commitment to working together to improve water and sanitation in the state.

The webinar was a valuable opportunity to share information and ideas on how to improve water and sanitation in the state. The outcomes of the webinar will help to inform future efforts to improve public health in the state.

In addition to the outcomes listed above, the webinar also generated a number of recommendations for action. These recommendations include:

- Increasing investment in water and sanitation.
- Strengthening the capacity of government and non-governmental organizations to deliver water and sanitation services.
- Increasing community participation in water and sanitation projects.
- Promoting the use of innovative technologies to improve water and sanitation.

The webinar organizers are confident that these recommendations will help to improve water and sanitation in the state. They are committed to working with all stakeholders to ensure that these recommendations are implemented.

Sonima
