Resolution:

1. Increased awareness The empowerment of women is a great responsibility that all these women need.
2. All these women deserve respect, love, care, and happiness.
3. Ask the students to work on a project about women's challenges or gender equality.
4. Lead a discussion on what students can do in their home, at school or in the community to bring women closer to equality.
5. Girls' education strengthens economies and reduces inequality.
6. They earn higher incomes, participate in the decisions that most affect them, and build better futures for themselves and their families.
