Seminar on “Patent to Product (Srujanta Se Samruddhi)” dated 26.04.2025

On receiving the intimation from Ministry of Education’s Innovation Cell (MIC) and AICTE, to attend week-long IP UTSAVA from 21st to 26th April 2025 to raise awareness about the crucial role of IP in fostering innovation and creativity among students, educators, and innovators in HEIs across the country and also to raise awareness on Patent to Product (Srujanta Se Samruddhi), the IIC of our college circulate this information to both students and faculties to actively participate in this event. As a result of this circulation, about 12 students and 4 teachers of our IIC attended the programme by joining in Google meet platform where the YouTube video was shared. The participants were enriched with the information discussed by the speakers.

The screenshot shows a Google Meet interface during a presentation. The main window displays a slide titled "Patents" with a flowchart and a table. The flowchart outlines the criteria for an invention to be granted a patent, including being a new product/process, having an inventive step, and being capable of industrial application. The table provides examples of inventions and their status regarding these criteria.

Examples	Product or Process	New	Inventive step	Industrial application
Edison's light bulb	X	✓	✓	✓
