P.O.—BHUPATINAGAR, Dist.—PURBA MEDINIPUR, PIN.—721426, WEST BENGAL, INDIA

NAAC Re-Accredited B+Level Govt. aided College

CPE (Under UGC XII Plan) & NCTE Approved Institutions

DBT Star College Scheme Award Recipient

E-mail : mugberia_college@rediffmail.com // www.mugberiagangadharMahavidyalaya.ac.in

Criteria: 7; Sub-criteria: 7.1.2

Relevant document to support the claim

Dr. Swapan Kumar Misra
Principal

Mugberia Gangadhar Mahavidyalaya

Principal
Mugberia Gangadhar Mahavidyalaya

7.1.2 The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and no degradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

Response: A. 4 or All of the above

7.1.2 THE INSTITUTION HAS FOLLOWING FACILITIES AND INITIATIVES FOR

1. ALTERNATIVE SOURCES OF ENERGY AND ENERGY CONSERVATION MEASURES:

The purpose of incorporating alternative sources of energy and implementing energy conservation measures in an educational institute can have several benefits, like

➤ **Environmental Sustainability:**

Reducing Carbon Footprint: Alternative energy sources, such as solar, wind, or geothermal power, are cleaner and produce fewer greenhouse gas emissions compared to traditional fossil fuels. Implementing these sources helps reduce the institution's environmental impact.

➤ **Cost Savings:**

Lower Energy Costs: Investing in renewable energy sources can lead to long-term cost savings. While the initial setup costs might be high, the ongoing operational costs are often lower than conventional energy sources. This can result in substantial savings over time.

➤ **Educational Opportunities:**

Hands-on Learning: Integrating alternative energy sources into the curriculum provides students with practical, hands-on learning experiences. It allows them to understand the technology behind renewable energy and promotes environmental awareness.

➤ **Efficient Lighting and Appliances:** Use of energy-efficient lighting systems and appliances.

➤ **Building Design and Insulation:** Proper building design and insulation to minimize the need for heating or cooling.

➤ **Smart Building Technologies:** Implementation of smart technologies to monitor and control energy usage in buildings.

a) **SOLAR ENERGY:Yes**

Roof Top Solar Power Plant of capacity 10 KWh is installed and it will meet some of the power demand by the institute

Solar Panel installed on the roof of the Administrative Building, of Mugberia Gangadhar Mahavidyalaya

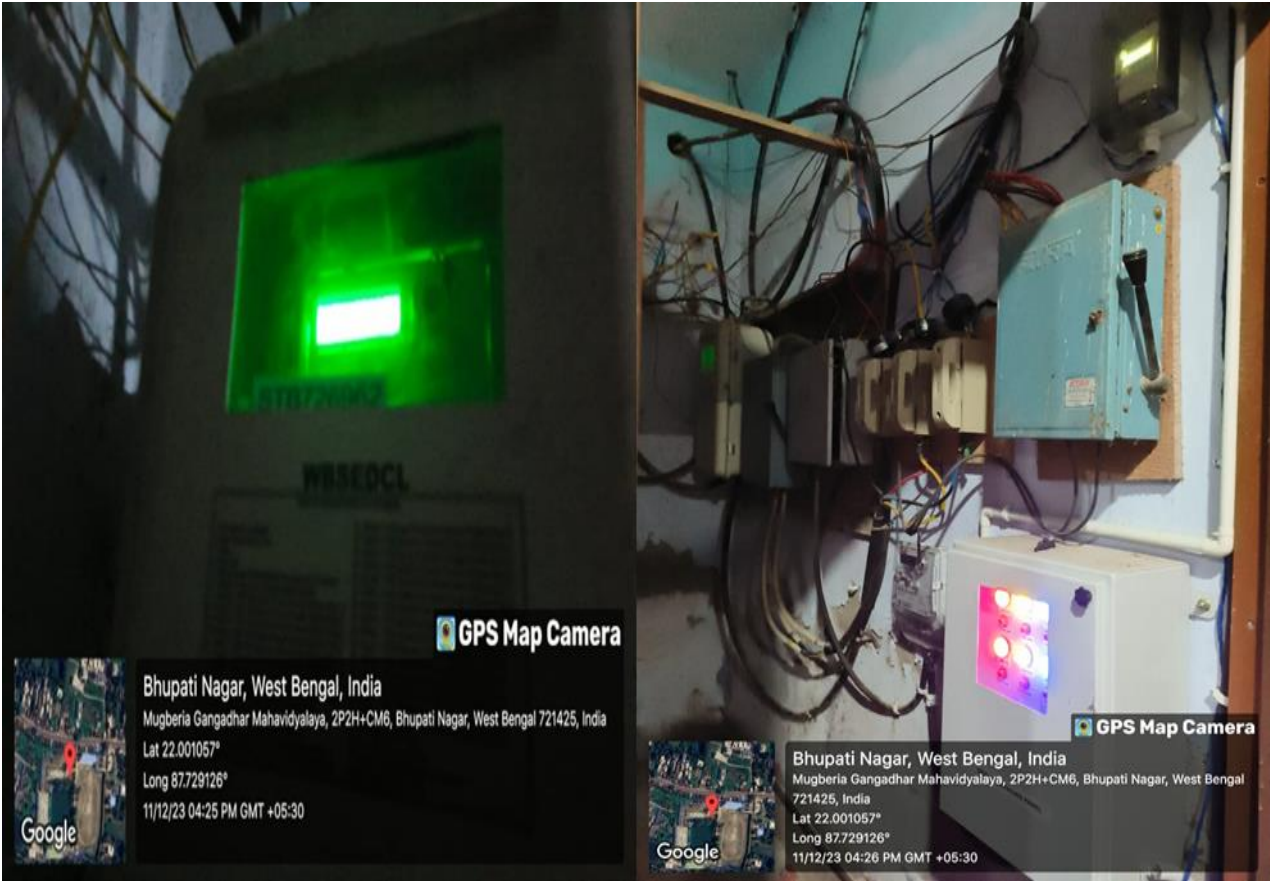

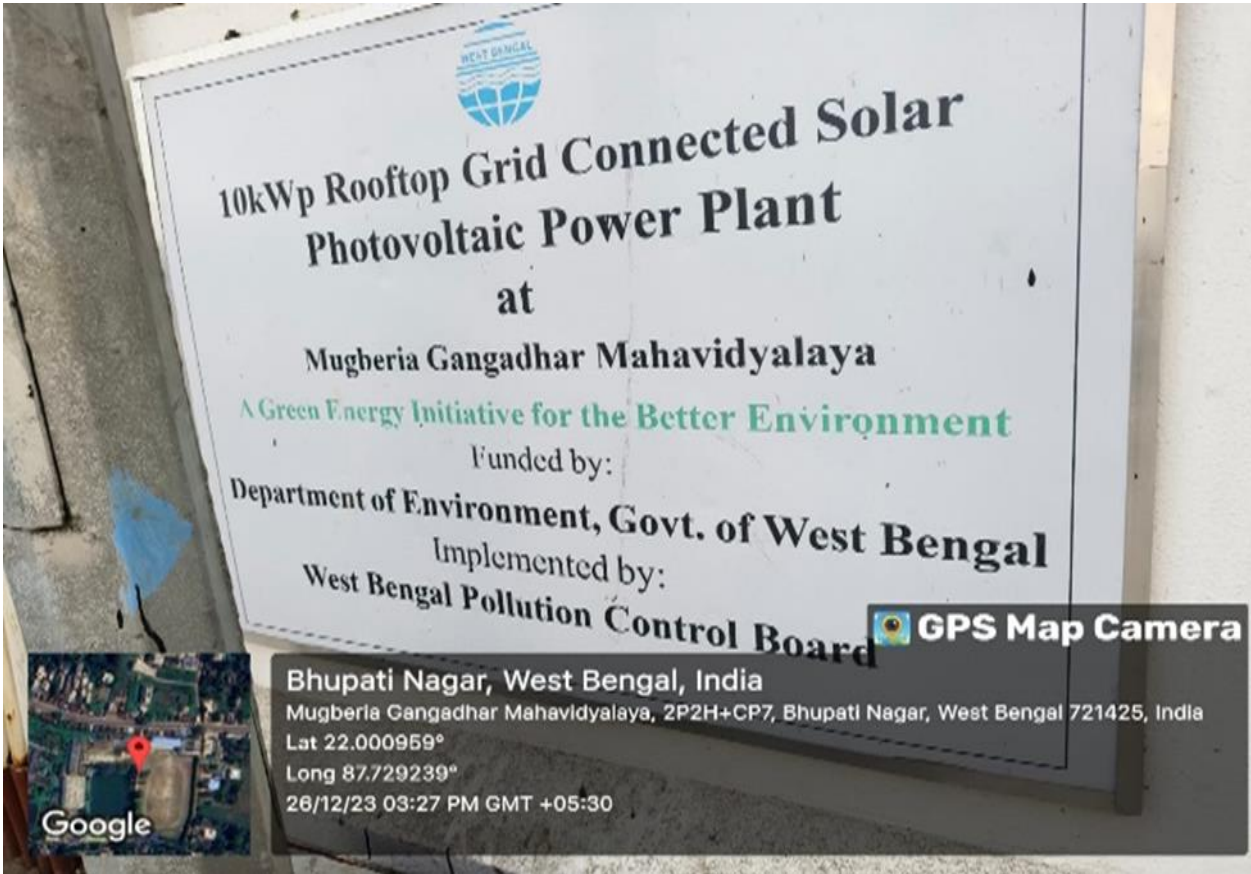

Solar Panel installed on the roof of the Department of nutrition of the college

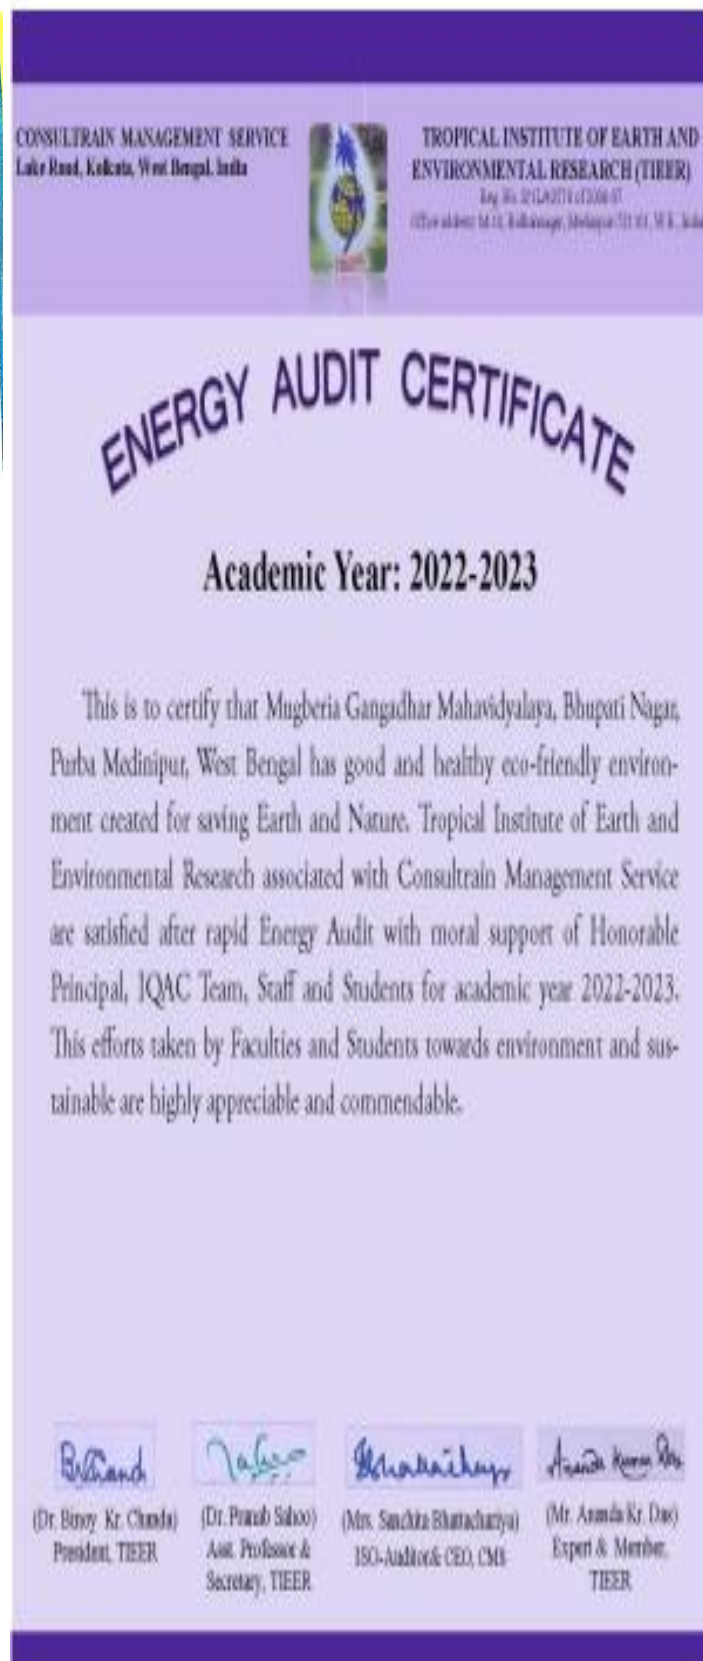

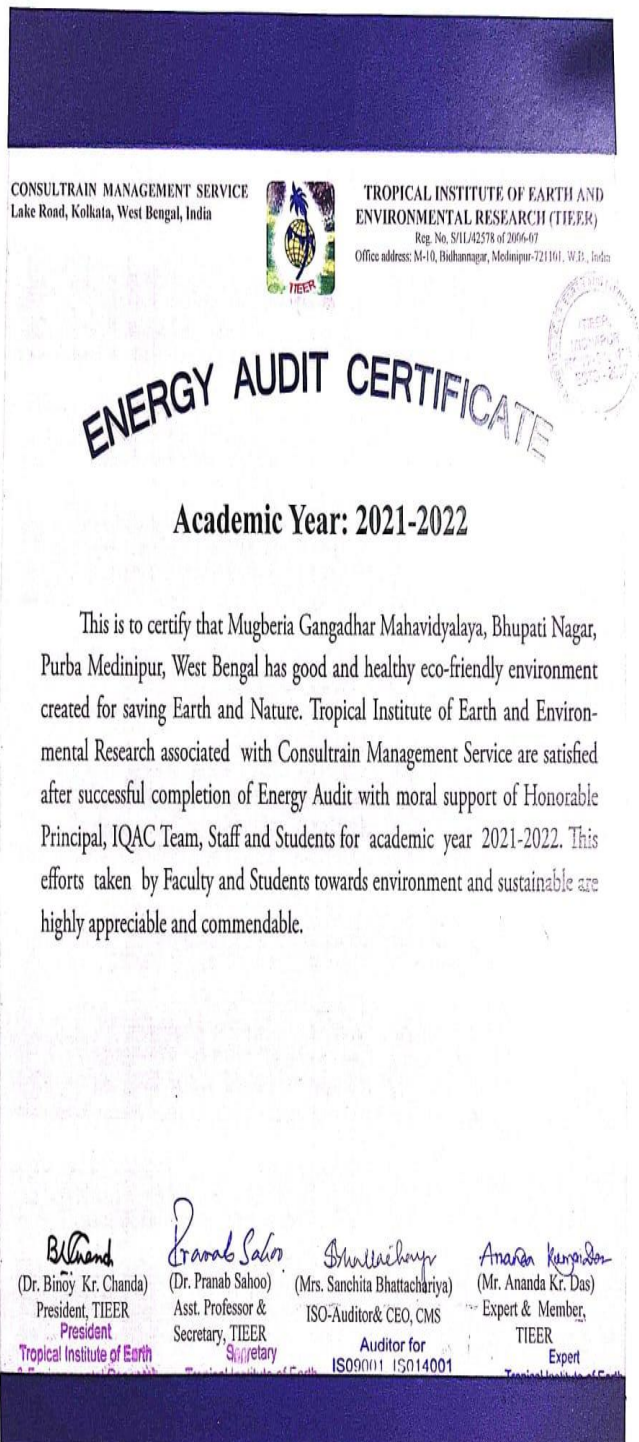

Solar Panel installed on the roof of the pond water purifier house

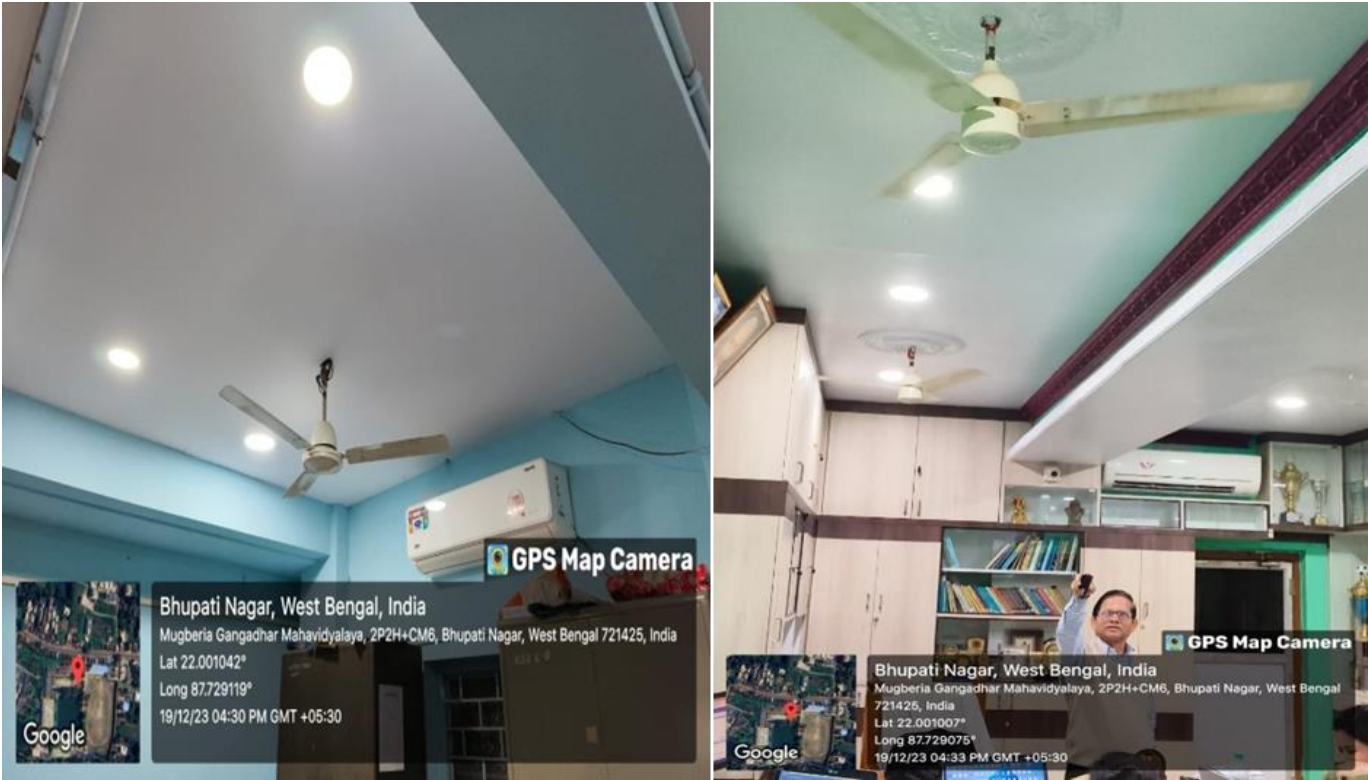

b) WHEELING TO THE GRID: Yes

c) **ENERGY AUDIT:Yes**

d) USE OF LED BULBS: Yes

LED light & BLDC fan are used for reduction of energy consumption

LED tubes are used for reduction of energy consumption

e) POWER EFFICIENT EQUIPMENTS: YES

Energy Efficient Power Saver 5 Star Air-Conditioner

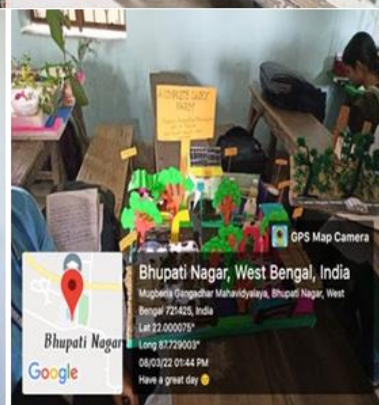

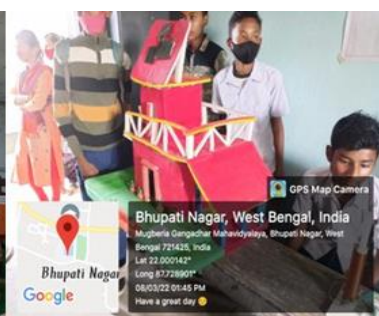

Energy saving freezer are used for electric consumption

2. MANAGEMENT OF THE VARIOUS TYPES OF DEGRADABLE AND NON-DEGRADABLE WASTE

The management of various types of degradable and non-degradable waste in educational institutions serves several important purposes, contributing to environmental sustainability, health, and overall well-being. Here are some key purposes:

- **Environmental Conservation:** Proper waste management helps minimize the negative impact of waste on the environment. It prevents pollution of air, soil, and water, preserving the natural ecosystems around educational institutions.
- **Promoting Sustainable Practices:** By implementing recycling programs and promoting the reuse of materials, educational institutions contribute to the conservation of valuable resources. This supports sustainability by reducing the demand for new raw materials.
- **Educational Opportunities:** Managing waste in educational institutions provides opportunities for teaching students about the importance of responsible waste disposal and recycling. It fosters environmental consciousness and encourages sustainable habits.
- **Health and Hygiene:** Effective waste management helps prevent the spread of diseases and the creation of breeding grounds for pests. It contributes to maintaining a clean and healthy environment within the educational institution, benefiting students, staff, and visitors.
- **Community Relations:** Proper waste management practices can positively impact the relationship between the educational institution and the local community. It reflects a commitment to being a responsible and environmentally conscious neighbor.
- **Cost Savings:** Implementing effective waste management practices can lead to cost savings. Recycling and waste reduction initiatives can lower disposal costs and potentially generate revenue through the sale of recyclable materials.
- **Innovation and Research:** Managing waste provides opportunities for research and innovation. Educational institutions can engage in projects and studies related to waste reduction, recycling technologies, and sustainable practices.
- **Long-term Environmental Stewardship:** Integrating waste management into the overall culture of an educational institution instills a sense of responsibility and environmental stewardship among students, faculty, and staff, fostering a commitment to sustainable practices in the long term.

a) **Solid Waste Separation:** The types of solid waste can be categorized into several groups based on their characteristics.

Paper and Cardboard: Used notebooks, papers, and cardboard packaging should be separated and selling to the recycler

Plastic Waste:

Plastic bottles, containers, and packaging should be collected separately from particular bin and selling to the recycler.

International Plastic Bag Free Day. Observed by our NSS units of the college at our adopted village Madhakhali.

<https://twitter.com/MugberiaM/status/1545388726331002881/photo/1>

Glass Waste:

Glass bottles and other glass products are separated in particular bins. It is sold to recycler

Metal Waste:

Aluminum cans and other metal items, such as food cans, are collected and separated to particular bins and sold for recycling.

E-waste (Electronic Waste):

Discarded electronic devices such as old computers, printers, and electronic gadgets need special handling and recycled separately due to the hazardous materials they contain. Regular disposal of E-Wastes from our institution through registered Company named Hulladeck

To,
Dr Swapan Kumar Misra (Principal)
Address: Mugberia Itabaria Road, Bhupati Nagar, Purba
Medinipur West Bengal 721425.

Date : 25.06.2021

Subject: Service for E-waste Management Agreement.

Dear Sir,

As discussed, with Mr. Nandan Mall, please find below the mentioned scope of services and the cost towards the E-waste management and compliance agreement.

Services Provided Three Years	
Compliances as per Government rules	
Priority E-waste Pickup and Certification	
Yearly Documentation & Return Filing – Form 2, and Form 3	
Awareness Sessions	
Management Fees options	Fee Structure (Per Property)
Total Management one-time Fee for 3 years in advance	₹ 30,000.00 /-

Note :

- 18% GST will be charged additionally on the above quote.
- Payment shall be 100 % advance.

Hope you find this in order. This is for your kind information.

We would like to hear your views and look forward to our association.

Theme of webinar
Recycling is a key component of modern waste reduction and is the third component of the "Reduce, Reuse, and Recycle" waste hierarchy. So as a partner in the community, Waste management is a process through which we are committed to helping the communities to keep the environment clean through innovative recycling programmes that ensure well being community for next generation. However, the success of recycling depends on the active participation of every member of the community.

Subthemes:
Solid waste management, Biodegradable waste management, Waste management towards circular economy, Waste management and occupational health, Agriculture waste management, Medical waste management, Household waste management, Waste water management, Swachhita Action plan, Greenery concept for better environment, E-waste management.

Invitation for full length paper: Abstract submission dead line (250 words)- July 29th, 2020, Full paper submission dead line -August 31st, 2020 for publication in the book with ISBN No. Send your abstract and full paper to kousik2141983@gmail.com

Registration: No registration fee.

Construction and Demolition Waste:

construction or renovation activities on the premises, waste materials like concrete, bricks, or other construction debris are separated and well managed.

Plastic waste:

Red Dustbins are meant for disposal of Plastic Wastes like plastic bottles and packets etc.

Biomedical waste:

Yes, very negligible Bio-medical waste is generated in the institute

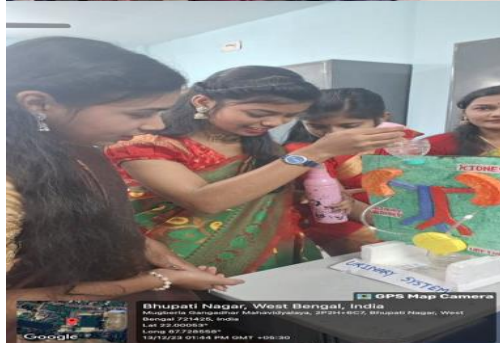

Regular disposal of Bio -Medical Wastes disposed through yellow colour dustbin

Liquid Waste:

Regular disposal of liquid Wastes disposed through Top blue black colour dustbin and some of the liquid waste materials are removed through surface drain

Model Competition with waste items amongst 1st sem Bio- Science students, Mugberia Gangadhar Mahavidyalaya , dated 13.12.2023

Date: 04/12/2023

Memo No: 673(A)

NIT No with Date

644/SBM(G)II/2023-24 Date:-21/11/2023 (SL No-01)

Contractors Name

Sukhamoy Maity

Name of the Work

Construction of modified Community Leach Pit at Mugberia Gangadhar Mahavidyalaya & Mugberia gangadhar High school for GWM Project under SBM(G) Fund for the year 2023 -24.

Tender Value

: Rs.79024.00 (Rupees Seventy Nine thousand Twenty Four Only)

In reference to the above NIT No it is intimated that, as per decision of tender committee, your tendered amount of Rs.79024.00 quoted in the tender submitted by you on 01/12/2023 has been accepted for the above work.

You have to follow the terms are mentioned below.

- 1) Entire work/supply should be completed as per PWD Specification and as per enclosed schedule and drawing within thirty (30) days after issue of this letter.
- 2) For the case of stack measurement deduction of void will be applicable as per PWD rule.
- 3) The earnest money deposited by you should be treated as part of security deposit and rest amount should be deducted from your bill for consist of 10% amount of security deposit. Such security deposit (only for work contract) should be refunded to you after 3 months for general works and 6 months for road work from the date of satisfactory completion of the work.
- 4) The payment should be made on the basis of measurement taken by Nirman Sahayak / Engineer-in-charge over work done and supply quantity.
- 5) The accepted rate is inclusive of all Carrying; loading, unloading, short carriage, Materials, Income tax, Labour Cess, Royalty etc.
- 6) Necessary deductions for applicable taxes (if applicable) should be made from your bill.
- 7) No payment should be made in case any report is received that work is not being carried conforming to specification as laid down in the attached schedule of work.
- 8) Part payment is not the right of agency it will depend on the decision of the undersigned.
- 9) The Tender amount excluding all of taxes.
- 10) All deduction i.e. GST, ITDS and Labour Cess will be deducted as per Government norms.
- 11) No payment shall be made without Tax Invoice from Contractor.
