**7.1.1: Institution has initiated the Gender Audit and measures for the promotion of gender equity during the last five years. Describe the gender equity & sensitization in curricular and co-curricular activities, facilities for women on campus etc.**

Gender equity in higher education institutions refers to ensuring fairness and impartiality in opportunities, treatment, and outcomes for individuals of all genders within academic settings. It entails eliminating discriminatory practices and creating an environment where everyone, regardless of gender, has equal access to education, resources, and opportunities.

The institution's commitment to promoting gender equity, as one of the sustainable development goals, is reflected through a series of proactive practices aimed at fostering a safe, inclusive, and supportive environment for all members of the campus community. In order to spearhead the array of activities undertaken in the direction of gender equity, the following committees and action cells have been created. The activities of the following cells are linked below:
