- There are key concern in the present Higher education system with the overhauling recommendations of the NEP-2020. In accordance with the visions that are inscribed in the NEP-2020, the new framework for accreditation for colleges and universities have been framed by the NAAC. Now, the new framework of NAAC not only encapsulated the broader aspects of the 7 point criterion but also expands different areas of discussions on revamping the curriculum, pedagogy, assessment, student support and so on and so forth. The new framework wants the academic institutions to comply with and taken into considerations of the ideas that are framed. On this note, this national seminar is intended to explore these areas which are very important for the colleges located in the rural backdrop.
