CERTIFICATE COURSE

ON

I.C.T IN CONTEMPORARY GEOGRAPHICAL STUDIES.

DEPARTMENT OF GEOGRAPHY

DATE: 27.07.2023 TO 11.09.2023

VENUE: Room No-216, (ERATOSTHENES HALL)

Members Present: - 01. Dr. Swapan Kumar Misra (Principal)

FACULTIES

- **03. Smt. Irani Banerji Chatterjee (HOD)**
- **04. Sri Mithu Roy**
- **05. Sri Somnath Bhunia**
- **06. Smt. Rita Pradhan**
- **07. Sri Sujoy Das (Course Co-Ordinator)**
- **08. Sri Sanatan Sasmal**

The Department of Geography organised a certificate course on **I.C.T in Contemporary Geographical Studies**, dated 27/07/2023 to 11/09/2023 with the 2nd semester students. The certificate course was held in Room_no-216 (Eratosthenes hall) of the college.

The inauguration program of the certificate course held on 27/07/2023, chaired by Principal, Dr. Swapan Kumar Misra and faculties of the Department. The purpose of the certificate course was extending geographical knowledge by using I.C.T.

The program was inaugurated by the Principal Dr. Swapan Kumar Misra delivered in valuable speech on the importance of I.C.T in Geographical studies, and job opportunity.

Dept. H.O.D Smt. Banerjee delivered speech on present relevance on I.C.T in Contemporary Geographical.

Prof Sujoy Das conducted the certificate course smoothly and in his speech, he put forward the importance on this certificate course taken up by the department.

Total 52 students participated in this program. The program was a success in every way.

OUTCOME OF THE CERTIFICATE COURSE.

In contemporary era, students are acquiring knowledge about multidimensional uses of communication and information. A certificate course on **I.C.T in Contemporary Geographical Studies** is essential for such an information era particularly for geography students, who have both a scientific outlook and humanity dominated cultural diversity. Information and communication is the primary source of such a fascinating earth and man study domain. Students can benefit greatly from appropriate use, of ICTs, particularly geospatial technologies which support spatial thinking and also make the acquisition of knowledge more efficient and engaging. Geographic Information Systems (GIS), which can store, edit, analyze, and display the geographic data collected through GPS, RS, and other technologies. Most of students have seen GIS technologies at work when, for example, their local TV meteorologist displays an animation of weather conditions on a map etc. the elaborate study that they had from this course helped them to have a detailed description about the application of their knowledge.
