About the Camp: These camps were organized in the local H.S. Schools to encourage and motivate the students towards higher studies in bioscience along with allied sciences like Chemistry, Mathematics. As the schools were situated in rural and backward areas of West Bengal and as almost 80% students are first generation learners so most of the parents are reluctant to admit their students in Science stream. So to create interest and to reduce fear of the students towards science, these awareness and motivational lectures were initiated to the local schools by the departments of Chemistry, Zoology and Mathematics under DBT Star College Scheme.
