From— The Principal / Secretary,

Best Practise 1

2023-24

Title of the Practise:

Promote comprehensive and all encompassing development of students through various programs

In today's unified world, it is the responsibility of any higher education department, to extend beyond academic areas and adapt to the changing social, cultural and environmental needs that shape up the character of the students. Fostering social, cultural and environmental awareness is crucial for developing well rounded individuals who can contribute positively to society.

Objectives:

- To promote awareness among students academically through seminars and programs.
- To generate environmental, social and cultural perceptiveness among students.
- To encourage the environmental practices and projects of the college through both academic seminars and cultural celebrations.
- To help students to develop themselves with strong body, sound mind and aware citizens.

Context:

The College tries to work as a unified, comprehensive, holistic and sustainable environment of the region. The social awareness is achieved through both academic seminars and conferences, the cultural programs of the college aims towards diverse knowledge about communities and 'learning through fun' practices. The environmental awareness program ensures sustainable practice and growing the scope of the concept of green and innovative environment.

Practice:

- The college designs various projects, programs and certificate courses that seamlessly weaves social, cultural and environmental perspectives and into academics. Incorporating relevant case studies, real world examples and interdisciplinary projects helps students to connect theoretical knowledge with practical applications, fostering a deeper understanding societal, cultural and environmental issues.
- The college provides skill enhancement courses that provide students with opportunities to apply their knowledge and skills to address real world issues, creating a sense of responsibility and empathy for societal needs.
- The college creates a diverse and inclusive campus environment that is crucial for fostering social and cultural awareness through the extracurricular activities. This not only enriches the learning experience but also prepares students to engage in understanding different cultures and diverse perspectives.
- The college takes up environmental projects and enhance a healthy, sustainable and green campus initiative.

Evidence of Success:

The number of programs taken up by Mugberia Gangadhar Mahavidyalaya in the year 2023-24 that aim towards the holistic development of students

COGNITIVE DEVELOPMENT	SOCIAL DEVELOPMENT	INCLUSIVE ENVIRONMENT	PHYSICAL DEVELOPMENT
32	13	29	32

Problems Encountered :

1. The curriculum is designed by University which leaves very little scope for arrangement of programs within the tight schedule of classes which can not compromised.
2. The students are mostly 1st generation learners. It becomes difficult for them to understand the importance as well as application of the knowledge they receive from the programs.
3. Arranging for national as well as international seminars and programs become tougher due to the medium of instruction of the seminar or programs as the students are more comfortable in their mother tongue and they have tough time following lectures.

4. Due to the huge expense often involve with the spots and other cultural events, arranging for any global or large scale event is tough as the college has to rely mostly on its own fund.

Cognitive Development through Seminars and Workshops 2023-24

Conclusion

In conclusion, Mugberia Gangadhar Mahavidyalaya's holistic development initiatives exemplify its commitment to foster social responsibility and sustainable development. Despite facing challenges, the college remains dedicated to creating positive change within itself thereby empowering future generations to lead with compassion and integrity.
