Established in 1964 through community contributions, the college aimed to cater to the educational needs of underprivileged residents who lacked access to distant higher education institutions. Over the years, it has expanded its outreach to the farthest reaches of the community, resulting in a notable increase in the enrolment of female students. This surge can be attributed to extensive awareness campaigns organized by the college, along with opportunities provided by state and central government scholarships such as "Kanyasri Prakalpa" and "Beti Parao Beti Banchao," which are systematically implemented by the college administration.

Central to our mission is the provision of comprehensive facilities that promote gender equity, aiming to educate, empower, and foster self-reliance among all students. Furthermore, our objectives prioritize vocational training and diploma courses to cultivate strong ties between academia and industry.

The governance of the institution is deeply aligned with its vision and mission, guiding both academic and administrative policies. These policies, considered the backbone of the institution, underscore our commitment to delivering quality education within a rural setting amidst the evolving landscape of global education. By nurturing critical thinking, creativity, and values, our policies strive to instil a well-rounded education that prepares students for the challenges of the future.

**Quality objectives and outcomes:** The College operates in accordance with its Vision, Mission, Goals, Values, and Beliefs statements, which serve as guiding principles for its programs and activities. Quality is achieved through the integration of teaching and learning, the advancement of knowledge through research programs, and leadership in service and outreach. Through these endeavors, the College aims to excel in preparing professionals who offer exemplary educational and related services to enhance the lives of individuals in the digital age.

The collaborative efforts of the Management, Principal, and Faculty Development Committee are instrumental in formulating quality policies and plans to uphold the institution's mission and vision. The Governing Body, in conjunction with the Principal, ensures the maintenance of a conducive academic environment, implementing decisions and policies while considering input from teaching, non-teaching staff, and students. The Principal personally engages with staff members to maintain decentralized practices.
